

Quick Guide

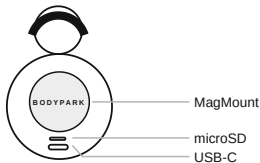

BODYPARK

Front & Back

FRONT

BACK

3 Steps

-   Download the App
-   Pair
-   Connect to Wi-Fi

① Download the App

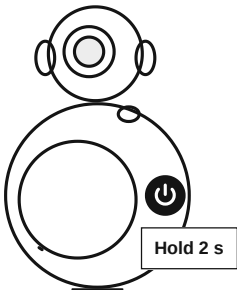

ai.bodypark.fit/app.html

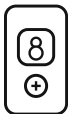

App Store

Google Play

2.1 Power On

2.2 Add Device

Pair in the **ATOM**
app

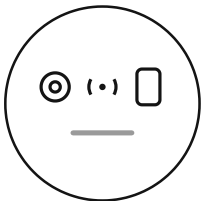

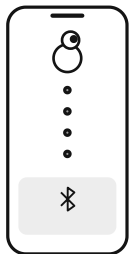

Don't pair in your
phone's Bluetooth
settings

Once ATOM is on, the app finds it automatically.

PAIR

2.3 Pair

ATOM 4E3Y

Select your ATOM

3.1 Via Phone

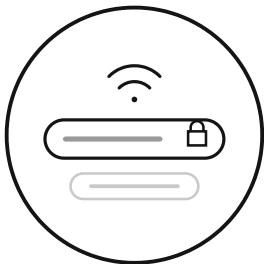

2.4 GHz

Pick a network in the app

5 GHz and login-page networks are not supported.

3.2 On ATOM

Enter the password on ATOM

3.3 Hotspot

iPhone

Maximize Compatibility

Android

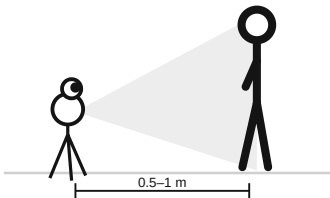

AP band

2.4 GHz ✓

Turn on your phone's hotspot, then connect ATOM to it.

Place Your ATOM

Best: tripod, knee height

↑ Knee height, or on the floor

↔ Stand 0.5–1 m away

☒ Full body in frame, view clear

•→ Front or side view

Do

Recommended

Front

Side

Either works
— as the
exercise
shows

Don't

⦿ WHAT ATOM SEES

Too close

Too far

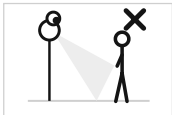

Off-center

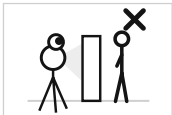

Tilted up

□ HOW IT'S PLACED

Too high

Blocked

Train Big on Your TV?

✓ DO THIS

1

Phone and
TV on the
same Wi-Fi

2

Cast with
your phone's
**Screen
Mirroring**

⚠ NOTE

Casting comes
from your phone —
ATOM doesn't
connect to the TV

Tip: the in-workout exercise view also supports landscape.

Train Quietly with Headphones?

✓ DO THIS

Set **Sound Output** to Phone in the app

⚠ NOTE

ATOM can't connect to headphones directly

Need Help?

Frozen? Hold 10 s to restart

Can't pair? Restart ATOM, Bluetooth on

Wi-Fi fails? 2.4 GHz only

Poor tracking? Full body in frame
