BODYPARK

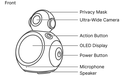
Quick Guide

BODYPARK ATOM

Getting to Know ATOM

Front & Back

Front



Back

Power on and connect

3 Easy Steps

1. Download the App
2. Pair with ATOM
3. Connect to WiFi

Download

1 Download the App

BodyPark ATOM

https://ai.bodypark.fit/app.html

Download on the App Store | GET IT ON Google Play

Pair Your Account with ATOM

2.1 Power On

⚠ Charge ATOM before first use

Pair Your Account with ATOM

2.2 Add Device

Create an account, then pair your ATOM in the app ✓

Don't pair in your phone's Bluetooth settings ✗

⚠ Make sure ATOM is powered on and in pairing mode

Pair Your Account with ATOM

2.3 Finish Pairing

ATOM 1234 ✓

⚠ You can pair multiple ATOM devices with the same account.

Connect to WiFi

3.1 Connect via Your Phone, or ...

Pick a network in the app

- ✓ 2.4 GHz WiFi
- ✓ Personal Hotspot
- ✗ 5 GHz WiFi
- ✗ Login-required WiFi

Wi-Fi 123456789 ✓

⚠ Does not support 5GHz or login-required WiFi

Connect to WiFi

3.2 Connect on ATOM

Enter the WiFi password on ATOM

Connect to WiFi

3.3 Connect to a Mobile Hotspot

iPhone

Maximize Compatibility

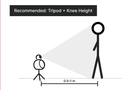
Android

Set AP band to 2.4 GHz ✓

⚠ Turn on your phone's hotspot, then connect ATOM to it

Positioning

Position ATOM Correctly



- Knee height or on the floor
- Distance: 0.5–1 m
- Full body in frame, view unobstructed
- Face the camera or turn sideways

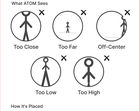
Positioning

Recommended

Either works — follow the exercise cues ✓

Positioning

Avoid



Use with Headphones

Train Quietly with Headphones?

✓ Do This

⚠ Caution

ATOM and the app can each play audio — best to keep just one on.

Use with a TV

Train on the Big Screen?

✓ Do This

⚠ Caution

Note: The in-workout exercise screen supports landscape mode.

Need Help?

- **Update,** update ATOM & the app regularly
- **Frozen?** Hold Power Button for 10s
- **Can't Pair?** Turn on Bluetooth & restart
- **No WiFi?** 2.4 GHz only
- **Tracking Issues?** Keep your full body in frame
- **Found a Bug?** Report it in the app
