

# Quick Guide

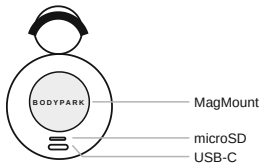

BODY PARK

# Front & Back

## FRONT

## BACK

# 3 Steps

---

-   Download the App
-   Pair
-   Connect to Wi-Fi

# ① Download the App

---

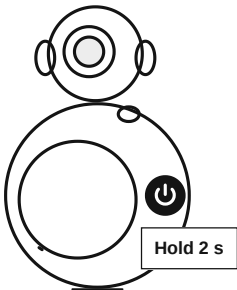

[ai.bodypark.fit/app.html](https://ai.bodypark.fit/app.html)

App Store

Google Play

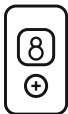

## 2.1 Power On

---

## 2.2 Add Device

---

Pair in the **ATOM**  
app

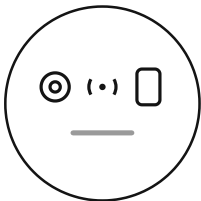

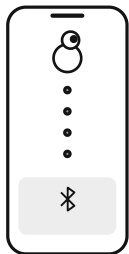

Don't pair in your  
phone's Bluetooth  
settings

Once ATOM is on, the app finds it automatically.

PAIR

## 2.3 Pair

ATOM 4E3Y

Select your ATOM

## 3.1 Via Phone, or ...

2.4 GHz

Pick a network in the app

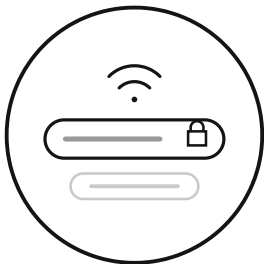

---

5 GHz and login-page networks are not supported.

## 3.2 On ATOM

---

Enter the password on ATOM

## 3.3 Hotspot

---

### iPhone

Maximize Compatibility

### Android

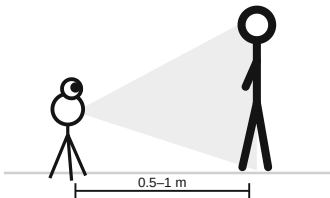

AP band

**2.4 GHz ✓**

Turn on your phone's hotspot, then connect ATOM to it.

# Place Your ATOM

**Best: tripod, knee height**

↑ Knee height, or on the floor

↔ Stand 0.5–1 m away

☒ Full body in frame, view clear

•→ Front or side view

# Do

**Recommended**

Front

Side

Either works  
— as the  
exercise  
shows

# Don't

---

## 🎯 WHAT ATOM SEES

Too close

Too far

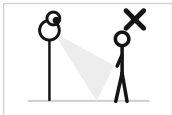

Off-center

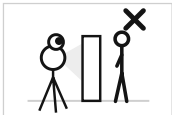

Too Low

## ❑ HOW IT'S PLACED

Too High

Blocked

# Train Quietly with Headphones?

## ✓ DO THIS

Set **Audio Output** to Phone in the app

## ⚠ NOTE

ATOM can't connect to headphones directly

Avoid ATOM and the app playing audio together.

# Train Big on Your TV?

## ✓ DO THIS

1

Phone and  
TV on the  
same Wi-Fi

2

Cast with  
your phone's  
**Screen  
Mirroring**

## ⚠ NOTE

Casting comes  
from your phone —  
ATOM doesn't  
connect to the TV

Tip: the in-workout exercise view also supports landscape.

# Need Help?

---

**Update often** — ATOM & app ship new versions

**Frozen?** Hold 10 s to restart

**Can't pair?** Restart ATOM, Bluetooth on

**Wi-Fi fails?** 2.4 GHz only

**Poor tracking?** Full body in frame

**Found a bug?** Use in-app Report — it helps us improve

---

**Scan for FAQs**
